World Horticultural Trade and U.S. Export Opportunities

U.S. Horticultural Product Exports To China Are Growing Strong

Source: U.S. Bureau of the Census
1/ October-July period only

Spurred by market liberalization policies and the successful completion of phytosanitary accords, U.S. horticultural product exports to China have seen a dramatic increase in recent years. For example, U.S. sales of horticultural products to China in fiscal year (FY) 1999 (October-September) were valued at \$57 million, up more than 200 percent from the \$18 million shipped in FY 1993. Moreover, U.S. shipments of fresh and processed fruits and vegetables to China during the first 10 months (October-July) of FY 2000 were valued at \$70 million, up more than 40 percent from the same period last year. Top U.S. horticultural sales to China includes frozen vegetables (mostly potato frozen fries), dried vegetables, fresh vegetables (mainly celery), fresh fruits (oranges), tree nuts, wine, and wine products. Although sales of horticultural products to China are still modest, Congress's recent approval of Permanent Normal Trade Relations with China should improve export opportunities and expand further U.S. horticultural sales to China.

Export Summary

U.S. exports of horticultural products to all countries in July totaled \$882 million, an increase of 3 percent from the same month a year earlier. Nine of the 15 product categories registered value increases. Categories with the most significant increases in July were fresh citrus (up \$9.8 million or 61 percent), canned/prepared fruit (up \$3.8 million or 27 percent), and fresh vegetables (up \$5.2 million or 23 percent). The categories with the most significant decreases were wine (down \$5.9 million or 12 percent) and dried fruit (down \$3 million or 10 percent). For fiscal year (FY) 2000 to date (October-July), the total value of U.S. horticultural exports was \$8.7 billion, up 1.2 percent from the same period in FY 1999.

To access **FAS Attache Reports** online, please reference the following Internet address:

<http://www.fas.usda.gov/scriptsw/attacherep/default.asp>

Search through the country and market reports prepared by FAS attaches covering over 20 horticultural and tropical product commodities and nearly 130 countries. Search by keyword, including country and commodity.

Cocoa and Honey Reporting Coverage Discontinued

Beginning with the June 2000, Tropical Products: World Markets and Trade Circular and the November, 2000, Sugar: World Markets and Trade Circular, commodity and country analysis and statistical tables for cocoa and honey will be discontinued. This decision was necessitated due to declining Foreign Agricultural Service budget resources and the need to more strategically target remaining resources in support of the agency's primary mission to facilitate the expansion of export opportunities for U.S.-produced agricultural commodities. The Horticultural and Tropical Products Division (HTP) expects to continue to receive voluntary reporting on cocoa and honey production and trade from an abbreviated number of countries and these will continue to be posted on the FAS and HTP Home Pages upon receipt.

What's New on the Homepage?

The Horticultural and Tropical Products Division has redesigned its homepage in order to bring the latest information to the public as efficiently as possible. The site now contains information on policy and technical developments affecting trade in horticultural commodities, as well as selected reports submitted by FAS overseas offices and special reports prepared by the division. The information will be updated every two weeks, with older news being archived. Other new features include updated commodity pages and U.S. trade data. For further information on the HTP homepage, please contact Karina Ramos at (202) 720-0897. Go to <http://www.fas.usda.gov/http/>

World Trade Situation and Policy Updates

Pacific Northwest Cherry Shipments To Australia Exceed Expectations

Fresh sweet cherry exports to Australia from the states of Washington, Oregon, and Idaho topped more than 28,000 20-lb. carton equivalents through the end of the shipping season on July 30. These deliveries exceeded all expectations, especially considering that Australian authorities did not approve shipments until June 15, 2000, almost three weeks into the harvest season. Reports from the cherry industry representative in Australia indicate that retailers were highly pleased with the quality of fruit sent and are looking forward to next season.

U.S. Exports of Horticultural Products Projected up in FY 2001

Exports of horticultural products are forecast at \$10.7 billion in FY 2001 (October 2000 - September 2001), up \$300 million from the FY 2000 estimate. This forecast assumes continued sales expansion in the Canadian market and strong economic growth in Mexico and several Asian countries. Increased citrus exports are likely due to the expected size of the U.S. orange crop and the initial opening of China's market. Also, wine shipments to Asia are again expected to do well in the coming year. The estimate for FY 2000 remains unchanged at \$10.4 billion. A larger orange crop (and resulting expansion of exports) continues to offset the impact of a smaller apple crop. Wine exports are up, but record world supplies of almonds and walnuts has resulted in another downward revision in tree nut prices and thus total export value for tree nuts.

China Growing in Importance for U.S. Wine Exporters

U.S. wine exports to China jumped almost 250 percent from 1998 to 1999 to reach \$2 million, largely due to wine entering the Chinese market directly rather than via Hong Kong. Last year, China ranked 23rd as a market for U.S. wine exports, up considerably from 66th place in 1990. Although China's wine market is still in its infancy, it presents long-term opportunities for expanded exports as urban consumers are educated about U.S. wines. The market is presently made up of inexpensive imported bulk wine mixed with Chinese wines and expensive imported labels, and lacks quality wines in the middle price range. A growing middle class base and an increasing openness to imported foods, combined with reduced tariffs following China's entry into the WTO, could prove a winning combination for U.S. exporters in the long run.

Japanese Imports of U.S. Asparagus Reach 5-Year High

Japanese imports of U.S. asparagus totaled 5,220 tons (valued at \$20.1 million) in the first 6 months of 2000, the highest level since calendar year 1995. Sales were particularly strong during the months of April and May, months typically dominated by local product. Mid-to-late season U.S. asparagus and Japanese buyers predict further growth during these months as local production is expected to

gradually decline. Overall, the United States accounts for roughly 20 percent of total Japanese imports.

Pecan Production is Rising in Mexico

Mexico's pecan production for marketing year 2001/02 (October 2001-September 2002) is forecast to increase to approximately 59,000 tons, up 1.7 percent from 2000/2001. This increase is due to planned increases in planted acreage and new trees coming into production. Mexico is the second largest pecan producer in the world. Pecans are harvested in Mexico from October to December.

Vegetable Production in New Zealand Up, Prices Down

The farmgate value of vegetables sold in New Zealand reached a record NZ \$517 million, or U.S. \$222 million. However, according to industry estimates, increased acreage, excellent growing conditions and high yields led to depressed market prices for the onion and the potato industry in 1999/2000. It is estimated that due to the current lower produce prices, as many as 20 percent of commercial growers may leave the industry. Production of some key green vegetables, including broccoli and lettuce, increased as acreage expanded. This again led to a general trend of lower prices.

Austrian Fruit Production on the Rise

Austrian fruit production is around 700,000 tons, half of which are apples. The production value of fruits is usually in the range of AS 3.1-3.2 billion (approximately U.S. \$230 million), which accounts for 10 percent of total agricultural production. In view of accession to the European Union and hopes for larger market opportunities, area under commercial production has risen between 1994 and 1997 (last survey) by 13 percent.

Japan Approves All Varieties of U.S. Nectarines

On August 30, 2000, Japan's Ministry of Agriculture (MAFF) lifted the phytosanitary ban on the remaining varieties of U.S. nectarines. In the late 1980's, MAFF approved 10 varieties. The Japanese fresh nectarine market remains fairly small with a wholesale value of about \$10 million. Japan's access to the new varieties from the United States, particularly the white flesh types will open new business opportunities for U.S. nectarine exporters. Approximately 2,000 cartons of the new varieties are expected to be sold this season.

USDA Trade Successes Surpass \$2 Billion in Fiscal Year 1999

On September 20, 2000, USDA released its fourth annual Sanitary and Phytosanitary (SPS) Accomplishments Report, highlighting more than \$2 billion worth of trade successes in FY 1999. By removing barriers to trade, APHIS has been instrumental in opening, expanding, and retaining

overseas markets for U.S. agricultural products. USDA is dedicated to ensuring that U.S. farmers and producers benefit from the opportunities available in this new era of trade, while also protecting the health of our domestic agricultural resources. A total of 53 SPS-related trade issues involving U.S. agricultural exports were resolved in FY 1999 with the help of APHIS and its USDA partners, in particular the Foreign Agricultural Service, as well as the Office of the U.S. Trade Representative, and the Department of State.

USDA Extends Comment Period on Proposal to Allow Fuji Apples from Korea

USDA is extending the comment period on a proposal that would allow the importation of Fuji apples from certified orchards within approved production areas in the Republic of Korea. Under the proposal, the apples would be imported into the United States without treatment, but under certain conditions designed to prevent the introduction of the peach fruit moth, the yellow peach moth, the fruit tree spider mite, and the kanzawa mite. Notice of this action was published in the August 22, 2000, Federal Register. Consideration will be given to comments received on or before October 23, 2000. APHIS documents published in the Federal Register, and related information, including the names of organizations and individuals who have commented on APHIS dockets, are available on the Internet at <http://www.aphis.usda.gov/ppd/rad/webrepor.html> For more information, contact Dennis Hannapel, co-director of Asia and Pacific, Phytosanitary Issues Management Team, PPQ, APHIS, USDA, 4700 River Road, Unit 140, Riverdale, Maryland 20737-1236, (301) 734-4308.

USDA Announces Plant Health Conference 2000 in North Carolina

USDA is sponsoring a plant health conference on October 24-25 in Raleigh, North Carolina, to discuss the detection and monitoring of invasive species in the United States. Industry representatives and the scientific community as well as federal and state regulatory officials are invited to attend this first-ever, USDA-sponsored plant health conference. The goal of this conference is to talk about cutting-edge technology that can be used to better protect American agriculture from invasive species now and in the future. During the two-day conference, participants will have the opportunity to listen to a number of keynote speakers, share ideas, and generate innovative scientific strategies. The conference also will provide a forum to forge new partnerships between industry, the scientific community, and regulatory agencies. The registration fee for this first plant health conference has been waived. For registration and location information contact Catherine Channell with USDA, APHIS, at (301) 663-0342 or e-mail her at catherine.a.channell@usda.gov. Information is available online at www.invasivespecies.org/plantconference/

USDA to Hold National Summit on Agricultural Transportation

USDA announced on September 13, 2000, that it will host a national summit on Agricultural Transportation Challenges for the 21st Century, Nov. 28-29 at the Renaissance St. Louis Airport Hotel, in St. Louis, Mo. The summit was originally scheduled to take place Oct. 2-3. At the summit,

USDA will highlight long-term agricultural transportation challenges and consider how those challenges can be addressed through a long-term agricultural transportation strategy. Experts will present the results of research on the long-term transportation needs of U.S. agriculture and the long-term availability of transportation infrastructure and services for agricultural shippers. This summit represents the culmination of several years' work by USDA on transportation issues.

At the National Agricultural Transportation Summit in Kansas City, Missouri in 1998, USDA introduced the broad array of transportation issues being faced by U.S. agriculture as it enters the 21st century. Since that time, USDA has worked closely with shippers, farmers and other industry representatives to further identify the long-term transportation needs of U.S. agriculture and with transportation experts to anticipate the transportation services and infrastructure available to U.S. agriculture should current trends continue.

The summit is open to the public. There will be a registration fee of \$75 to cover the cost of materials and meals. A tentative agenda, registration form, and hotel information are available on the web at: <http://www.ams.usda.gov/tmd/summit>

FDA Launches National Food Safety Education Month Efforts

FDA's Office of Regulatory Affairs is awarding food safety program grants totaling \$350,000 to various state and local health agencies. The funds will be used to enhance state and local programs that are developed at the federal level. To learn more about National Food Safety Education Month, consumers can call 877-727-FOOD toll-free for a recorded message hotline set up by FDA's Center for Food Safety and Applied Nutrition and USDA's Food Safety and Inspection Service (FSIS).

Glickman Announces Workshop for Limited Resource Farmers

USDA will hold a marketing outreach workshop for limited resource farmers October 31-November 2, 2000, at the Doubletree Hotel Conference Center in Modesto, California. The workshop will feature breakout sessions on: Contracting Opportunities and Dealing with Wholesalers; Food Quality and Safety; PACA Rights and Small Farmers; Federal Procurement Programs; Marketing Cooperatives; and Access to Export Markets. Additional topics include Agroforestry and Other Crops; Livestock; Agritourism and Value-Added; and Direct Consumer Marketing. The marketing workshop is a joint effort with California State University, University of California-Small Farms Program, University of California Cooperative Extension Service, Modesto Junior College, and Stanislaus County. For information, visit the workshop website at: <http://marketingoutreach.usda.gov>

For questions or concerns on the data included in this publication,
contact us at the address shown above.

Summaries and selected tables from many Foreign Agricultural Service world market and trade reports are available electronically. The reports include U.S. Export Sales (available electronically after 8:30 a.m. on release day); Grain: World Markets and Trade; Oilseeds: World Markets and Trade; Cotton: World Markets and Trade; Tobacco: World Markets and Trade; World Agricultural Production; the early release version of

World Horticultural Products and U.S. Export Opportunities; and Tropical Products: World Markets and Trade (all available electronically after 3:00 p.m. Washington DC time on release day) as well as Sugar: World Markets and Trade; Livestock and Poultry: World Markets and Trade; Dairy: World Markets and Trade, and U.S. Planting Seed Trade (available within a week after release.)

You can read the reports on the FAS home page (<http://www.fas.usda.gov>). The reports remain "current" until the succeeding issue is available. Older issues are available in the archives section of the home page. We also make selected cover articles and graphics available from these publications, in a separate section of the site. Reports are also available from the Economic Bulletin Board at Stat-USA, on the same schedule. For more information, you may contact Stat-USA at (202) 482-1986 (Monday-Friday, 8:30-5:30 p.m. Washington, DC time.)

For more information on the FAS home page, contact Glenn Kaup, tel. (202) 720-3329; fax. (202) 720-3229; or via e-mail kaup@fas.usda.gov

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer."
